

What have we been learning?

This month we have been busy making crafts for Easter and decorating our Easter bonnets for the parade. We even had a visit from 'Stitch' the rabbit and the children were very gentle with him and enjoyed feeding him some greens.

We had a great time celebrating Earth day by painting our own Earths.

The children have been refreshing their knowledge of animals and remembering where they live, very impressive!

They have had a real interest in construction, which involved lots of messy play, which the toddlers thoroughly enjoyed, the messier the better.

We have also done lots of planting and are waiting for our carrots and peas to grow, so we can take them to Bryan to cook for our lunch..... yummy!

What's next?

Next month we will be learning about wildlife and taking part in lots more planting.

As a nursery we are taking part in the giant sunflower competition, entry forms and information about how you can do this too, will be available shortly in the reception area.

Reminders

Please can we ask you to put cooler clothing in your child's bags as the weather is becoming nicer and we want to keep the children as cool as possible.

If your child cannot have our nursery sun cream, please can you bring this is, labelled with your child's name.
