

What have we been learning?

This month we have been looking at spring and changes we can see, spring colours, gardening and life cycles.

The children have been checking the tadpoles everyday, watching them grow and get bigger and waiting patiently for their legs to appear!

We have been doing lots of activities including potion making, planting, creating art with flowers and leaves and even going on a trip to the park.

We had a visit from 'Stitch' the rabbit who came to see us all and the children were very kind and gentle to him, stroking and feeding him.

Our artist of the month was Ruth Asawa, who focused on printing. So the children explored different ways of creating marks by using fruit and veg, cars, stamps and even hands and feet.

We had so much fun!!!

What's next?

Next month we will be looking at the artist Kandinsky, who focuses on creating art based on emotion, sound and movement!

This will then branch off into looking at colours, shapes and mark making.

Reminders

Please can we ask you to bring in sun hat for the babies as the weather is becoming warmer and label these.

Could you please include some cooler clothing in their bags as well as lots of changes may happen due to water play and other fun messy activities.
